Art Unit: 2834

Claims 2, 4-7, 9, 10, 12-17, 19, 20, 27 and 28 are rejected under 35 USC 103(a) as being unpatentable over Culp ('484), Culp (816) or Swada in view of Rudnick or Kohno.

Culp and Swada teach the trapezoidal multi-layer piezo electric actuator structure except for the specific lead architecture. They provide leads wire bonded to the sides of the stacks. However, each of Heinz Kohno and Rudnick teach providing solid state leads that both extend onto an end surface of a piezo electric stack so as to make assembly easier and provide stronger connections. Thus, for at least these reasons it would have been obvious to one of ordinary skill in the art to use an end surface of Swada or Culp as the lead connection surface.

Claim 18 is allowed.

Regarding applicants comments and the limitations added to parent claims 27 and 28, please note Kohno (fig. 8) and Rudnick (figs. 13 & 14) which explicitly show a first external electrode formed on the first and second surfaces to substantially the same point. Since elimination of an element with the consequent loss of its function has long been held to be within the skill expected of the routineer, elimination of the second external electrode from e.g. the bottom surface would have been obvious to one of ordinary skill in the art.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
